Fan-ash Making
MRS. CATLETT, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by British and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expense in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as if to town.

Dec. 19 ROBERT GLENN.

For the prevention and cure of
BILIOUS AND MALIGNANT FEVERS
is recommended
HARRIS' ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly grateful
the inventor's feelings in several parts
the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.
Facts of this conclusive nature speak
in favour of a medicine than coun-
sels of pompous eulogy founded on
mere assertion.
It is not indeed presumptuously pre-
sented as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
in every two weeks during the preva-
lence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
esteemed desperate and beyond the pow-
er of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation, and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.
They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

Hamilton's Grand Restorative.
Is recommended as an invaluable me-
dicine for the speedy relief and perma-
nent cure of
Nervous Disorders Violent cramps in
Consumptions the stomach and
Loss of spirits back

Hysterical affection Gout in the stomach
Inward weakness Pains in the limbs
and debility Relaxations, etc.

A safe and effectual remedy for acute
and chronic rheumatism, gout, rheumatic
gout, palsy, lumbago, numbness, white
swellings, chilblains, strains, bruises, pain
in the face and neck, etc. etc.

Lee's Ointment for the Itch.
Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with the
tormenting smart which attends the ap-
plication of other remedies.

Hahn's true & genuine German Corn-Plaster.
An infallible remedy for corns, speedily
removing them root and branch, with-
out giving any pain.

The Genuine Persian Lotion.
So celebrated among the fashionable
throughout Europe, is an invaluable co-
smetic, perfectly innocent and safe, free
from corrosive and repellent mineral
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimple,
inflammatory redness, scurfs, tetter, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water.

of the eyes, whether the effect of mor-
tality or of accident.

FROM THE NEW ENGLAND GALAXY.

Inno Domini 2000 Anticipated?

Curiosity respecting future events is one of the strongest propensities of the human mind. A century ago, a celebrated European divine and poet, declared that the state of the empire was taking westward its way; and poets of our own have often confirmed the prediction, and have shown us "visions of glory" in prospective, till as Sir Pertinax McSycophant says, "the strings of our eyne were almost cracked" with gazing.

A friend of mine who lives in one of the villages that beautify the banks of Connecticut river, has lately consulted the stars, and found that the following articles will appear in a paper that will be published in Boston at the commencement of the twenty-first century entitled

THE WESTERN WORLD.

Northampton, Sept. 4, 2000.

Yesterday the members of congress from Canada and Esquimaux, passed through this city. They were waited on by the mayor, recorder and aldermen of the 5th and 17th wards, and visited the principle factories. They appeared most delighted with the manufactory of incom-

combustible cotton, malleable glass, and China ware. On this occasion, the town hall, the arsenal, the college, and the Bazar at the corner of the Exchange, were superbly illuminated with the ethereal ignited translucent Luvian fixed volatile. Indeed the volatile Luvian so far surpasses the old fashioned gas lights for brilliancy, that the latter, for the last half century, have only been used in sick rooms, where a bright light would be injurious to the patient. It is astonishing that the Luvian volatile was not discovered by our ancestors three centuries ago; but we must recollect that chemistry had made but little progress at the commencement of the 19th century.

Washington, Aug. 4.

By despatches from our envoys in Russia, to the principal secretary of territorial relations, brought by the steam frigate Fulton, we learn that the emperor Petro Paul appears to be at last willing to cede Kamtschatka to the United States. When we consider that we are already in the possession of the Bechring and Audran Isles, and that Kamtschatka from its proximity naturally pertains to the United States and is separated only by a paltry, half frozen straight, we cannot be surprised that the court of St. Petersburg should have so long and so pertinaciously contested our indubitable right.

Nantucket, Aug. 14.

Arrived here this morning 27 sail of whalers, from the Pacific Ocean. They returned as usual through the isthmus of Darien. We mention this circumstance, because it has been apprehended that the Grampus, 1800 tons could not pass the canal without taking out her freight; but we are happy to state that such is the depth of water in the canal since the cut from lake Nicaragua, that the Grampus loaded to her beams, passed through all the locks without any injury except the staving of a few fathoms of her false keel. The captain speaks in high terms of the civilities of the custom house officers on the Venezuelan as well as the United States side of the canal.

Washington, Aug. 12, 2000.

We do not presume to know, for we would not by any means have it understood that we have access to the cabinet more than our brother editors, but we conjecture that the late seizure of the British frigate in the state of Florida will not, on investigation, be found as is stated, in the opposition papers, either an oppressive or unjustifiable act in the government of the United States. It is well known that after the annihilation of the English naval force by our steam fleet, on the glorious and ever memorable fourth of march, 1990, the rulers of that nation had the sagacity to see, and the candor to own, that the happiness and glory of the nation had been sacrificed in the pursuit of that evanescent phantom, a commercial monopoly; and their envoys declared, that, in future, their

policy would be to endeavor to obtain a competent share of commerce, by a fair and common rivalry in the market, and not by force of arms, or maritime restrictions. In the same spirit, the treaty of 1991, was made, by which they ceded Jamaica, their last West Indian possession, to the United States, and expressly declared that, in future, they would not put in commission any vessel of war above the rate of 16 guns.

Philadelphia, Sept. 1, 2000.

Yesterday came passengers in a Greek polacre from Messina, signors Raphael Giotto, and Bartholomew Pierina, two celebrated Italian sculptors, in order to perfect their education by studying the models and attending the lectures in our academy of Fine Arts.

THE CROPS.

Appearances are in favour of a very abundant crop of wheat this year. As far as we have heard, the fly has not made its appearance, or at least not to a very considerable extent; and as the prospect is in favor of the British ports being open, our farmers may anticipate an abundant reward for their past labours.

Since spring weather has commenced in good earnest, vegetation has assumed a most enlivening appearance. As far as our information extends, the late frosts have not been so serious in their consequences, in this section of the country, as had been apprehended. Early fruits were very much injured—peaches, cherries, &c. especially; but the most substantial products of the soil, have only been kept back a little beyond the ordinary period. The corn is backward, but one or two warm, seasonable months will give it a full growth.

Think, oh, greatly think,
How good the God of Harvests has been to you.

Petersburg Rep. 22d inst.

TOBACCO MARKET.

A vessel has arrived in James river from Amsterdam, which place she left the latter end of March, with information, that the price of tobacco in that market, had not been so high in the last twenty years, as it was at the time the vessel sailed.

ibid.

One day last week, 5 very respectable old gentlemen, all natives of this city, accidentally met in Wall street, and on counting their ages, it was found they amounted to three hundred and sixty-three years.

Y. N. Mer. 3d.

A kidnapper, by the name of Jernigard has been sentenced to suffer death in Wayne county, North Carolina.

A Nassau, N. Y. paper of the 22d April, contains the particulars of the loss of the brig *Two Brothers*, James Holmes, master, which sailed from New Orleans on the 15th March last, bound to Belfast. It appears that the vessel struck on the Maranilla Reef on the 22d, when the crew refused to do duty, and deserted her in the long boat, carrying with them provisions and water, and going on board the brig *Trader*, of Greenock, lying some distance at anchor. The capt. and mate by their own exertions, and some assistance that accidentally came up, succeeded in getting the vessel afloat; but while the mate was endeavoring to procure assistance to navigate her, she was again, on the 4th of April, driven on shore at the west end of Grand Bahamas, with two anchors ahead, and bilged. By the assistance of New Providence wreckers, such of the cargo as could be saved was landed, and afterwards carried to Nassau. Names of the refractory sailors—Wm. Green, who was the ringleader, Daniel Ryan, John Davis, Solomon Jeffers, Henry Drake, Edwin Merrill, and Jonathan Berry. Had the crew remained on board and attended to their duty, the vessel might have been got off and proceeded on her voyage.

The account of which the foregoing is the substance, is signed by James Holmes master and W. L. Avery, mate of said brig, who request editors of newspapers in the United States to republish it.

Extract of a letter, dated on board the United States ship *Hornet*, Cape Henry, April 28, received at N. York. "We arrived here from New York on the 23d inst. His sable majesty will not receive Mr. Taylor, because his credentials are not addressed to 'Henry King of Hayti.' We expect to sail to-morrow for Port-au-Prince, and thence to the Spanish Main. On our arrival here we fired a salute of twenty one guns, which was returned by the same number. His majesty spends most of his time in the country, superintending the building of a fortification. It is situated on the top of a very high mountain, having but one passage to it, which has been cut through the rock and will not admit more than three men abreast. It is not yet finished, although he has 800 pieces of cannon mounted, most of which are brass, and none less than 24 pounders. Within this fortification he has provisions and clothing sufficient for the subsistence of an army of 20,000 men for seven years."

LETTER-PRESS PRINTING,
NEATLY EXECUTED AT THIS OFFICE.

Alexandria, June 1, 1818.

There is in the following transaction something so gratifying to a benevolent heart, that we have always thought it would be a great pity to let it pass into oblivion.

The celebrated Charles Macklin, the Nestor of the stage, whose peculiar praise it was to have rescued Shakespeare's character of Shylock from being mingled with that heap of farce and low comedy which encumber the stage and degrade the public taste, and to be the first who reduced acting to a science, was at the age of about a hundred, arrested in the prosecution of his public labors, by a stroke of mental darkness, as unexpected as sudden—in short, by an instantaneous loss of memory, as he was on the stage, performing the character of that Jew to a crowded audience. All his life, too generous to accumulate a property for the support of old age, though for more than half a century moving in the most respectable ranks of his profession, this visitation of incapacity brought along with it poverty; it became necessary to call on the public for a subscription in some shape or other, for his support; and on a consultation of his friends it was determined to publish his "Man of the World," and his "Love Alomode," and to solicit subscriptions for the volume at a large price. Mr. Arthur Murphy wrote an address, to be issued with the printed proposal, intending to follow it up at no distant period with a history of Macklin's life and writings. Doctor Johnson had long before observed, on a similar occasion, that "to assist industrious indigence, struggling with distress, and debilitated by age, is a display of virtue, and an acquisition of happiness and honor"—and it was very justly concluded, that such an appeal to the people of England on behalf of a man who had been near 70 years diligently employed in his calling, and immediately under the public eye, would not be fruitless; and the great doctor Brocklesby, who had for many years been the admirer and ardent friend of Macklin, stood foremost in the benevolent transaction. The day after the project was unfolded by advertisement to the public, the doctor received the following letter from sir Joseph Mawbey:

"To Doctor Brocklesby.

"Dear Sir,—Having heard last night, that a plan had been adopted for the relief of Mr. Macklin, I have sent five guineas which I desire you will apply as my subscription.

"Independent of the pleasure I have received from the writings and action of that celebrated comedian, Mr. Macklin has a peculiar claim on me, from the following circumstance:

"On the death of Hesiod Cooke, about the end of the year 1756, at South Lambeth, myself and another gentleman sat on foot a private subscription for burying him, and for the relief of his wife and daughter. Whilst he yet lay dead in the house, I related to a friend at the Bedford coffee house, an account of his death, and the distress of his family, in the hearing of Mr. Macklin, then standing near the bar; immediately after which, though I had never spoken to him before, nor have at any time since. Mr. Macklin addressed me in words to the following effect: 'I am much concerned, sir, at hearing the melancholy account you have given of poor Cooke and his family; I had a respect for him whilst living, and you will therefore oblige me very much, if you will permit me to add my mite to the subscription you have so laudably set on foot; and he gave me two guineas.

"Such an unexampled act of genuine benevolence has ever since impressed my mind with a most favorable opinion of the goodness of Mr. Macklin's heart, and I have scarce ever heard his name mentioned in private companies without telling it to his honor.

"If you should think the publication of this anecdote, at this time, would be useful to Mr. Macklin, you have my leave to make it known in any manner you shall choose.

"I am, dear sir,

"With much respect,

"Your faithful servant,

"JOSEPH MAWBEY."

We will add, that two guineas at the time poor Macklin subscribed it, was of more value than ten when sir Joseph subscribed his five—Besides, sir Joseph was

very rich and Macklin was far from being so. The subscription for the latter was sufficiently large to purchase a very comfortable annuity (we believe £500) for the lives of the old gentleman and his widow, who though stricken with years might have been his grand or great-grand-daughter.

* He was commonly called Period Cook upon account of having translated that ancient poet from Greek into English verse.

Boston, May 23.

TENDERNESS OF CONSCIENCE.

On Thursday the 14th current, Ebenezer Seaver, esq. and another gentleman were chosen by the town of Roxbury representatives to the general court. Mr. Seaver immediately rose, and expressed his gratitude to the town for the honor they had conferred upon him by electing him their representative, whose duties he never had more leisure, and but for one circumstance, never more inclination to perform. After long and deep research, the christian religion appearing to him the fabrication of impostors, necessity compelled him, however reluctantly, to decline the office tendered him, because he could not conscientiously subscribe the following declaration required by the constitution of every representative—viz.

"I—do declare, that I believe the christian religion; and have a firm persuasion of its truth."

NEW MILITARY POST.

We are happy to perceive by the Washington City Gazette, that our government has it in contemplation to establish a military post at the mouth of Yellow-stone river, where it enters the Missouri, about 1800 miles above St. Louis. This we hope, is only a prelude to a regular line of forts between St. Louis and the mouth of Columbia river. A complete check will then be given to all British as well as to all Spanish aggressions.

Extract of a letter to the editor of the Charleston City Gazette; dated Havana, 14th May.

"I wrote you on the 7th inst. per the Sally—enclosed you have a continuation of our 'Noticio,' from the 8th to the 14th, inclusive. Nothing of moment offers for communication at the present time.

"The insurgents have not appeared off this port since the sailing of the fleet.

"Our market continues about the same—Rice will soon decline, considerable having arrived within these few days."

From the Charleston Gazette, April 25.

"Kingston, April 28, 3 P. M.

"I have only time to write to you, that the vessel of war Pelican, from Puerto Cabello, and Caracas, which anchored yesterday at Port Royal, brings very important private correspondence. I have read letters from gentlemen of veracity in the aforesaid island, and in compendium state the following, which may be relied on.

HIGHLY INTERESTING.

"A bloody action was fought at Valencia on the 17th inst: between the Patriot army and the Royalists; the former had their head-quarters at Victoria, 18 leagues from Caracas, and attacked the Spanish army at that place, under the immediate command of General Lopez, (Morillo having been previously wounded, mortally, at the Puerto, and carried to Puerto Cabello) who was killed, together with thirty of the principal officers of his legion; and from thence fled the relics of the royalists to Puerto Cabello.

"All the forces which the Spaniards had in Venezuela, were engaged in the battle of Valencia, 12 leagues distant from Puerto Cabello, Caracas and La Guayra, are now, without the least doubt in possession of the Independents, as detachments were instantly dispatched to occupy the same, after said combat at Valencia, all the inhabitants of which had every thing packed up to evacuate. When the official dispatches of the Patriots arrive, I will transmit them without delay.

"I enclose you this day's paper, which, with this, you will immediately hand to the editors of the City Gazette, for publication.

N. B. I wrote you very interesting news by the schooner Friendship, which

has proved to be true, and hope that you directed the same to be published."

RAN AWAY, on the 19th instant, a negro slave, named HARRY. His color is a dark mulatto, approaching nearly or perhaps quite to a black—he is about 5 feet 4 or 5 inches high—he has a swagging walk, is square built and slow speech, about 17 or 18 years of age—he had on when he left home, a blue cloth roundabout, yellow homespun pantaloons, and a new wool hat, he had many other articles of clothing not recollected. I am inclined to believe that he is lurking about Alexandria, Washington or Georgetown, as he is well acquainted in those places. I will give ten dollars if he is apprehended in Charles County, or if out of the county I will give the above reward, and pay all reasonable expenses if brought to me.

French Creek Boarding School.

The following is published for the information of Parents:

HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a

BOARDING SCHOOL FOR GIRLS.

With this view I have purchased the FRENCH CREEK FARM, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pileland and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniences for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.

In selecting the pupils, it is not proposed to be governed entirely by their ages, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.

The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance—no restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter.—The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.

Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to Edward Stabler, Alexandria, or to

EMMOR KIMBER.

Absconded.

ON the night of the 16th inst. my negro man JOHN, or John Allan, (as he calls himself)—he is well known, having lived with me for several years, and has travelled a good deal with me. He is a very plausible fellow, about 30 years of age, slender made, and about 5 feet 5 inches high, rather of a yellow complexion, but the complete negro mouth and nose—has a small scar on one of his cheeks—has lately had a sore on his right leg, directly on the shin bone, which leg has the appearance of being much scored at a former period by disease or the small pox. His hat was made and stamped by Rogers of Baltimore.—A reward of 10 dollars will be given if taken in the town or county of Alexandria, 20 if in the county of Washington or Fairfax, 30 if in Baltimore or state of Maryland, and 100 if in Philadelphia or the state of Pennsylvania, and in like proportion if at any other places, with all reasonable charges for bringing him here and securing him in jail.

RESPECTFULLY inform the public that they have just received from

LEE'S MEDICINE STORE,

No. 45, Maiden Lane, New-York, a fresh supply of the following valuable MEDICINES:

Hamilton's Worm destroying Lozenges.

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various & dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar title so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known. Worms which infest the human body are chiefly of four kinds viz.—The Tape or large round worm; the Ascarides or small may-worm; the Cucurbitum or short flat white worm; and lastly, the Tenia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS and MALIGNANT FEVERS.

is recommended

HALL'S JANTI-BILIOUS PILLS. THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West-Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health; and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir.

A sovereign remedy for colds, obstructions, catarrhs, sore throats, catarrhs, and approaching consumptions.—To persons who have children afflicted with the HOOPING COUGH, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative. Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders Violent cramps in Consumptions the stomach and Lowness of spirits back Indigestion Loss of appetite Melancholy Impurity of blood Gout in the stomach Hysterical affections Pains in the limbs Inward weakness Pains in the limbs and debility Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism; gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at once application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaster.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurs, tetter, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness, or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops.

For the cure of agues, remittent and intermittent fevers.

At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
